

Ensure a Registered Building Practitioner is a part of your plans.

If you're building or renovating your home, plan to use a Registered Building Practitioner. Only registered domestic builders meet the legal requirements to carry out domestic building work over \$5,000. They also have the right qualifications, knowledge and experience, plus domestic building insurance. Identifying a Registered Building Practitioner is easy too – just look for the logo or ask to see their official photo identification. Or to find a Registered Building Practitioner in your area, simply call or visit us.
